

WSCAcourses – Register Now!

Spring is here and so is our Spring Training Session!

The goal for all of us is to stay safe at work - these training courses are an integral part of that goal.

Time is running out at the end of May for the subsidised prices, so get your people trained and get your trainers trained so that you can do in-house training yourself! Companies with a sufficient group of people to train can also schedule their own classes. Let us know how we can help you to get your people the training they need to help them stay safe on the job!

Please see the attached information package with Student Application Form, as well as the calendar-view schedule for where and when the classes will be held. Please be advised that the WSCA reserves the right to cancel these courses if there are not sufficient seats filled in that course.

Please contact the Registrar, Laura Kassama, if you have any questions:
